Closed Caption Player

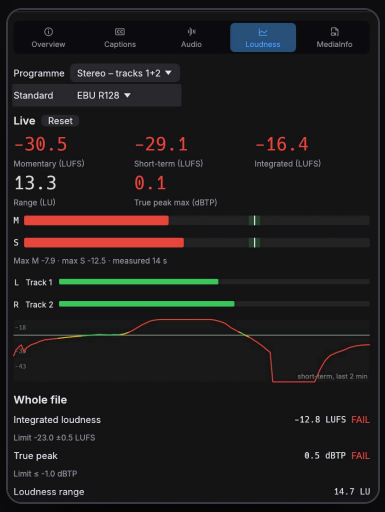

PRODUCT SHEET · VERSION 1.0.0

Broadcast caption QC on every desktop.

Open a master file and see exactly what a viewer's decoder shows, frame by frame: every CEA-608 channel and CEA-708 service, caption files beside the media, every audio track and the programme's loudness, in one fast native player.

Windows · macOS · Linux | MXF · MOV · MP4 · MPEG-TS · HLS

Every broadcast format

MXF (OP1a, XDCAM, AVC-Intra), MOV, MP4, MPEG-TS/PS and local HLS. XDCAM 50, ProRes, DNxHD, H.264, HEVC.

608 and 708, as decoders show them

CC1–CC4 and services 1–6 from SMPTE 436M ANC, VC-3, MOV caption tracks, SEI and MPEG-2 user data. XDS and V-chip.

Caption files as tracks

SCC, MCC, EBU STL, SRT, WebVTT, TTML/DFXP, CAP and more, aligned to the media's timecode, with an adjustable offset.

Cue table

Every caption of a channel with start and end times. Search, follow the playhead, double-click to go there, copy to a QC report.

Frame-accurate playback

J/K/L shuttle, slow motion and reverse, frame and field step, scrubbing with audio, and Go to timecode.

Picture checks

SMPTE ST 2046-1 and legacy safe areas, 4:3 centre cut, Program outline, deinterlacing and field view.

Audio on every track

Meters for up to 16 channels, programme layouts from stereo to 5.1, and mute and solo that keep each channel's side.

Loudness and MediaInfo

Live and whole-file BS.1770-4 loudness, LRA and true peak against EBU R128 or ATSC A/85, plus a full MediaInfo report.
